Target market

Likely objectives, financial situation and needs of consumers (investors) in the target market **Product description including key attributes**

s 994B(5)(b)

RG 274.68(b)

Objective

Investors seeking to achieve one or more of the following objectives:

- To participate in owning and racing a particular thoroughbred racehorse which is trained by particular trainer(s), with the possibility of breeding proceeds if the racehorse is subsequently retired to stud.
- To spread the costs and risks of owning and racing a racehorse with other investors in the syndicate, rather than seeking to retain full

The Fund is a horse racing syndicate designed to enable investors to have a micro-share (via the Fund) in the Racehorse.

Legally, the Product is an interest in a managed investment scheme registered with the Australian Securities and Investments Commission structured as a non-unitised trust. The legal owner of the Racehorse is the Issuer in its capacity as responsible entity of the Fund. The Issuer has appointed the Manager to manage the Scheme on a day-to-day basis, and to exercise its rights (as an agent of the Responsible Entity) in respect of the Racehorse in accordance with the relevant co-owners' agreement and the relevant rules of racing. The Racehorse is trained by the Trainer.

<p>ownership and control of the racehorse.</p> <ul style="list-style-type: none"> ■ To make a passive investment in a racehorse by leaving the management and day-to-day control of the horse to another person. ■ Potentially, to share in the prize money from the racing and/or breeding proceeds from subsequent breeding of the racehorse. ■ Potentially, to access capital growth from selling the racehorse. 	<p>The Product has the following key attributes:</p> <ul style="list-style-type: none"> ■ The Product is a class of interests in the Fund, the assets and liabilities of which are referable to the Racehorse. ■ A class of interests in the Fund do not constitute a separate trust. The Issuer, as responsible entity of the Fund, may acquire other racehorses, which will be held primarily for the benefit of holders of interests in another class in the Fund. ■ The costs associated with the acquisition, maintenance and racing of the Racehorse are generally funded by levies paid by Fund investors in the relevant class. Levies are charged up-front by the Responsible Entity and paid by investors as part of their subscription moneys. ■ Any net prize money and other winnings earned by the Racehorse are distributed to Fund investors holding interests in the Product in accordance with their respective proportional ownership of interests in that class. ■ The Racehorse may be sold at the conclusion of its racing career, or earlier if the Manager considers it to be in the interests of investors of the relevant class, and the net proceeds distributed to Fund investors in the relevant class. Alternatively, the Racehorse may be retired to stud, and breeding proceeds may earned for investors. Other options at the end of the investment period are set out in the Product Disclosure Statement for the Product prepared by the Issuer (PDS). ■ Investors apply for interests in the Fund, and receive reporting and other information from the Responsible Entity and the Manager, using either the Manager’s mobile application or website.

Financial situation

<p>Investors in one or more of the following financial situations:</p> <ul style="list-style-type: none"> ■ Investors with investable assets that meet the minimum product investment requirements. ■ Investors who are capable of weathering the loss of their invested principal and who understand that investing in racehorses is speculative in nature. ■ Investors who are not reliant on a steady or reliable income stream. 	<p>There is a minimum subscription amount per investor of \$305. There is no maximum investment amount.</p> <p>The investment risks of the Product include the risk that the Racehorse may not be able to be sold (due to, for example, death or injury) and that the Racehorse may not earn any prize money or other winnings. This may lead to a loss of capital and income.</p> <p>The fee structure of the Fund is based on the charging of a scheme levy and a horse levy, both of which are payable upon an application for the Product.</p>

- Investors with sufficient financial resources to pay initial levies.

Needs

Investors that have one or more of the following needs:

- Seeking to rely on the Manager's relevant expertise in horse racing and network of racehorse-related service providers.
- Seeking an interest in one particular thoroughbred racehorse only which is trained by a particular trainer.
- Seeking to invest in a thoroughbred racehorse for an expected investment period of three years.
- Seeking regular reports in about the status of the racehorse.
- Seeking to have an investor experience that is entirely digital, including in relation to making applications for investment and receiving information about and managing investments.
- Seeking to use a digital wallet to record interests in the Product.

The Manager has relevant expertise in horse racing, including in relation to procuring the service of various service providers in the racehorse training and racing industry.

The Racehorse is trained by the Trainer, who are experienced trainers of racehorses.

The expected investment period in respect of the Product is three years, which reflects the typical racing career of a thoroughbred racehorse, although the term of the investment in depends on a number of factors relevant to the ability of the Racehorse to continue racing. Investors do not have a right to require the Issuer to redeem their interests in the Fund or to buy them back at any time during the term of the Fund. However, investors may transfer their interests in the Fund to another person, with the approval of the Issuer at its discretion.

Access to the Product is available through using either the Manager's mobile application or website. Applications are made using one of these methods, and reporting by the Manager and the Responsible entity is made available via one of these methods. Interests in the Product are digitally recorded in the form of a token, which are on the public Polygon blockchain network, which is referred to as a sidechain of the Ethereum network.

Appropriateness of the target market and product attributes

s 994B(8) and RG 274.68(c)

The Issuer considers that the Product, including its key attributes, is likely to be consistent with the likely objectives, financial situation and needs of investors in the target market on the basis of:

- the relationship between the key attributes of the Product and the target market as set out in this TMD;
- the terms of issue of the Product;
- the particular nature of the assets of the Fund, being thoroughbred racehorses, and the sole asset referable to the Product being the Racehorse;
- the narrow purpose of the Product being to enable investors to obtain a small indirect interest in the Racehorse and to share any net prize money from any winnings from the Racehorse;
- the need for additional on-going levies to maintain and upkeep the Racehorse;
- the Issuer's experience and knowledge of the racing industry in Australia, including the drivers affecting and motivating the typical behaviours of owners of racehorses;
- the Manager's experience and knowledge of the racing industry in Australia; and

- the Manager's experience and knowledge of the Racehorse, and its connections with the Trainer including the respective roles and responsibilities of the Manager and the Trainer set out in the Trainers' Training Agreement and Fees Notice between the Manager and the Trainer.
